RoundCube

An online web application at webmail.nmu.edu that has a clean look but limited features and no mail filtering options.

SquirrelMail

An online web application at webmail.nmu.edu that has a basic look but more advanced features, including mail filtering.

Email Options

Although with the proper settings you can use most mail programs and applications, here are the most common options for using your NMU email account.

Outlook

A program with the most advanced options, tasks, address book, and a calendar. Outlook is automatically set up on all NMU computers to store copies of your mail on your computer, allowing you to keep older email and freeing up space in your NMU mailbox.

Smartphone Applications

Mail applications on your smartphone can use the settings at helpdesk.nmu.edu to send and receive mail messages.
